A Cyclone Creates Havoc in

DESTROYING MUCH PROPERTY

Farm Buildings, Crops, Orchards and Forests Laid Low by a Storm Near Springfield.

SPRINGFIELD, O., June 4.-Word has just reached here of one of the most de structive cyclones that ever visited this section of the country. The disaster occurred Thursday afternoon in Moorefield, Harmony and Springfield town-ships, and the damage to crops, forests, farm buildings and orchards will run up into the tens of thousands.

During a heavy thunderstorm two black clouds approached from the west and came together seemingly or John Yeasell's farm, about a miles from this city, in Springfield township. A wind at once arose, the electrical disturbance increased, and the country for miles around was lighted up. A heavy downpour accompanied the storm

The cyclone was half a mile wide and out down trees like a knife and literaltore the corn, wheat and outs out of the ground. The section of the country where the cyclone occurred is noted for its sugar camps, hundreds of acres being planted in sugar maple trees, and these were destroyed. Lewis Huff-man's sugar camp was completely de-molished. Jacob Yeazell's barn completely wrecked. An orchard belonging to George Nicholson was runined and fences and outbuildings by the score were laid low.

The force of the wind may be judged from the fact that it tore up an im-mense old oak on John Yeasell's farm and hurling it along in the air dashed it against another oak, crushing it off, and then planted the oak top down in the ground some hundreds of yards away. No fatalities have thus far been
